CAREER OBJECTIVE

I am a B.Tech Data Science student at JD College of Engineering and Management, Nagpur. I am passionate about technology and eager to build my skills in data analysis, machine learning, and web development. I enjoy working with Python, Excel, and AI tools to find useful insights from data and solve real-world problems. I am always learning new things through projects, hackathons, and internships. My goal is to become a skilled data scientist and developer who can create smart, data-driven solutions that make a real difference.
